

Cost Effective Hosted PBX Solutions

TELoIP offers our Partners unique Voice services that help their clients move away from traditional PBX systems and integrate voice with data communications over a converged IP network. This allows their customers to do more with less and save money in the process.

Standard PBX Scenario

TELoIP Hosted PBX Scenario

TELoIP Benefits

Call routing to any phone
An inherent advantage of most hosted PBX systems is that calls can be routed to any phone, of any type, anywhere in the world rather than only to phone physically connected by wiring to an in-office PBX. Employees can seamlessly receive business calls whether they are working in the office, at home, or on the road.

Lower up-front costs
There is no capital expense for starting a hosted PBX service.

Lower support needs
With a hosted PBX, TeloIP does the complex system management.
